

1 Tube support/Insert    2 'O' -ring    3 Body    4 Pipe clamp

## Typical Application:

Air systems.

## Pressure:

Working pressure from vacuum to 250 psi

## Vibration:

Fair resistance.

## Temperature Range:

Working temperature from -40° F to +200° F (Note: see tubing manufacturer's recommendations for pressure and temperature limitations)

## Material:

CA 360 Brass for Barstock fittings. CA377 Brass for forged fittings

## TUBE O.D SIZE
